

ATTENTION TRAVELERS ENTERING OR RETURNING TO NEVADA

You are urged to self-quarantine and monitor your health for 14 days as the state works to contain the spread of COVID-19. DO NOT visit public places or come into contact with persons not in your household.

Essential workers—including healthcare, public health, public safety, transportation, and food supply—are exempt from this request.

If you are experiencing symptoms of COVID-19 (fever, cough, shortness of breath), stay in your quarantine location and contact a doctor.
